Computer Security in Financial Organisations

J. Essinger

Computer Security in Financial Organisations J. Essinger

This book provides a unique in-depth focus on how financial organizations and suppliers of computer security are currently addressing - in strategic terms - the problem of computer security. Written in an easy to read, non technical style the book is essential reading for all those involved in the management of this sensitive area, from computer security managers, financial directors and managers to analysts and designers in financial software houses. The report analyses the computer security requirements of a wide variety of organizations in the financial services sector, ranging from retail, commercial and investment banks to financial trading and investment management organizations.
