Photographed in their natural environment, the flowers showcased in this 12-month array are displayed with great detail and offer a unique view of a variety of blooms. Featuring flower blossom photographs from Charles Fields, the images include everyday garden flowers and buds that often go unnoticed because they are small and hidden in fields or on woodland floors. Along with generous room for noting appointments or events and a notation of all major holidays and moon phases, this beautiful calendar also offers a brief description of each blossom, making it a thoughtful gift for any gardener or nature lover.
