A Planetary Awakening: Reflections on the Teachings of the Tibetan in the Works of Alice A Bailey

Kathy Newburn

Key points from the Ageless Wisdom teachings of the Tibetan provide insight into the challenges and opportunities of our time. As we witness the events unfolding on our planet, we know the future stands in the balance. We are entering a time long foretold in the prophetic writings of the world, when great events are due to occur and enlightened teachers will again come forward. Humanity is fast approaching the threshold of a great spiritual and cultural transformation - unprecedented in the history of life on Earth. Much of this book is a consideration of a teaching that has come to be known as the Ageless Wisdom, embodying ancient principles that have been passed down to us in oral, symbolic and written form. Among its manifold values, this teaching can guide us to an understanding of the subjective factors underlying outer events. It also provides a safe and scientific method of spiritual training that will continue to stand the test of time.

Comments by Reviewers "From my perspective as a life-long student of the Ageless Wisdom, I think Kathy Newburn provides a clear and easily understandable exposition of the often complicated and complex wisdom that has been given to humanity in the form of what the Tibetan Teacher Himself has termed the 'intermediate' teachings of the Ageless Wisdom - the first 'preparatory' teachings having been given out in the two tomes brought forth by Helena Petrovna Blavatsky in the late 1800s under the titles of Isis Unveiled and The Secret Doctrine. In A Planetary Awakening Kathy Newburn provides a significant glimpse into the forces and energies that underlie the happenings of the times. She easily accomplishes her goal of providing the interested reader with 'a deeper understanding of what is occurring in the world today,' while providing an opportunity for the reader to mindfully and consciously participate in the global consciousness shift at this time of the dawning Age of Aquarius." Ida Urso, Ph.D., Founder/President, Aquarian Age Community "Newburn's remarkable presentation on the Bailey books makes these teachings easily approachable. Her deep knowledge of esotericism and her ability to structure the presentation cogently give this volume its unique clarity. It's a must-read for anyone looking to become familiar with esoteric teachings." Andrew Binstock "This book is for the 'new generation' of traveler as well as the experienced one. We all need a guide on our spiritual journey at one time or another. Kathy Newburn is that guide in A Planetary Awakening..." Rose Cirigliano, playwright, "Where Do I Go From Agropoli?" "At last, a much-needed, much-awaited book incorporating the Ageless Wisdom philosophy with practical guidance and solutions to the difficult problems of our own time. Our seemingly chaotic world has meaning and purpose beyond our wildest imagining, and this book explains what we need to know and to do in order to align our thoughts and actions to create a new world civilization based on right relationship with all life." Barbara Anniballi "A Planetary Awakening is a book for the new millennium. It offers clarification and understanding of the present crises facing humanity and our planet and the opportunities these provide to those who seek a closer relationship with the soul and what lies beyond. In a readable, conversational style, Kathy Newburn skillfully presents the timeless insights of the Ancient Wisdom teachings and the way by which we can fulfill our destiny of serving the underlying purpose and plan for humanity. This book is essential reading for all those who strive to respond to the note of truth within the heart and mind and to expand the consciousness by reaching out towards a higher reality."
