Memory and the Moving Image: French Film in the Digital Era Isabelle McNeill

A vital rethinking of memory and the moving image for the digital age, Isabelle McNeill investigates the role of the moving image in cultural memory, considering the impact of digital technologies on visual culture. Drawing on an interdisciplinary range of theoretical resources and an unusual body of films and moving image works, the author examines the ways in which recent French filmmaking conceptualises both the past and the workings of memory. Ultimately the author argues that memory is an intersubjective process, in which filmic forms continue to play a crucial role even as new media come to dominate our contemporary experience.
