Though never as popular as DC, Marvel or even Archie, Charlton Comics had a long run from 1944 to 1985 and also produced a line of successful publications like Hit Parader. They didn't spawn the superhero icons other publishers did but released a variety of titles that have become beloved by millions. They were fortunate to employ an array of legendary writers and artists who displayed a creative passion in the Charlton titles more than with other publishers, where they received more pay and fame. When Charlton closed shop, they sold off most of their properties, with many left to languish in limbo. If anything, appreciation of their comics has grown over the years, with fan publications, such as Charlton Spotlight, dedicated to their memory. THE CHARLTON ARROW is the fruits of those labors and we hope it properly honors the Charlton legacy! CONTENTS DAY OF DECISION Isn't it a shame you had to grow up? In the far-flung future, an agent for the Interplanetary Military Police falls hard for an alien woman suspected of being a spy...
