## **Mastering Statistical Process Control** Tim Stapenhurst

Mastering Statistical Process Control shows how to understand business or process performance more clearly and more effectively. This practical book is based on a rich and varied selection of case studies from across industry and commerce, including material from the manufacturing, extractive and service sectors. It will enable readers to understand how SPC can be used to maximum effect, and will deliver more effective monitoring, control and improvement in systems, processes and management.

The common obstacle to successful use of SPC is getting bogged down with control charts, forgetting that visual representation of data is but a tool and not an end in itself. Mastering SPC demonstrates how statistical tools are applied and used in reality. This is a book that will open up the power of SPC for many: managers, quality professionals, engineers and analysts, as well as students, will welcome the clarity and explanation that it brings to understanding the use and benefit of SPC in a wide range of engineering, production and service situations.

Key case studies include using SPC to:

- Measure quality and human factors
- Monitor process performance accurately over long periods
- Develop best-practice benchmarks using control charts
- Maximise profitability of fixed assets
- Improve customer service and satisfaction

#### **Keri Yokum:**

People live in this new time of lifestyle always try to and must have the extra time or they will get wide range of stress from both lifestyle and work. So , when we ask do people have spare time, we will say absolutely sure. People is human not just a robot. Then we ask again, what kind of activity have you got when the spare time coming to anyone of course your answer will probably unlimited right. Then do you ever try this one, reading textbooks. It can be your alternative with spending your spare time, typically the book you have read is definitely Mastering Statistical Process Control.

#### **Cynthia Caron:**

As a student exactly feel bored to reading. If their teacher requested them to go to the library or make summary for some reserve, they are complained. Just minor students that has reading's heart or real their leisure activity. They just do what the educator want, like asked to the library. They go to generally there but nothing reading seriously. Any students feel that looking at is not important, boring and can't see colorful photographs on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. So , this Mastering Statistical Process Control can make you experience more interested to read.
