A true story, told from diaries in real time of a woman's fight to save her husband, held hostage by Israel's brutal domestic laws. This is the unreported information Israel doesn't want the world to know - how the country's corrupt laws hold both citizens and foreign nationals hostage just for money. Reviews for the book, which reached No. 1 on Amazon are: "A gripping read, should be a movie. Couldn't put it down!" " This is an incredible book. It is a true story but reads more like a gripping piece of fiction. What a heartbreaking story of love, deception, entrapment, and never-ending hope. Beautifully written, this is a real page-turner - I got totally engrossed in the story. I don't think I've ever been so emotionally involved in a biography. It is so hard to believe this can happen in today's age." "The author makes it very clear at the beginning of this book that it is a true story and I have no doubt that this is so. Despite that, this book has the "unputdownable" quality that I associate with the best fiction. In part this is down to the quality of the writing, which is extraordinary for a first book. Another aspect is the story itself, which has some of the qualities one would expect of a thriller." "At the most obvious level, this book has something to offer to anyone interested in Israel, the broader geopolitical picture or human rights in general. At a deeper level, it speaks to anyone interested in love, in freedom, or in what happens when human beings are subjected to intolerable pressures. Surely that must include all of us." "An amazing story. It is hard to credit such casual institutional cruelty and unawareness, and yet perhaps not, looking around the world. Marianne has managed to chart the terrible intricate ups and downs, the twists and turns of her story so clearly and in such a heartfelt manner. I read it in one go, over a couple of days; gripped by the near misses, the emotional charge and the sadness at the heart of it. It says something about freedom, how religion and the paranoia of state security and fear, when taken together, distort the mind and lead to something inhuman and harsh. Recommended." Read for yourself. Sharing this story may save a life. Israel is at war with its own people, and the story of just one person, representing so many more desperate people will be a shock. The poverty and abuse of ordinary people is told in this story of one person. Marianne risked her life to tell this story.
