Prison Writings II: The PKK and the Kurdish Question in the 21st Century Abdullah Öcalan

The Kurdish question, the general term for the fact that the Kurds have no independent homeland of their own, is one of the most complex issues in the Middle East. This situation will inevitably continue to bring about other problems. Its geographical location in one of the most fragile and strategically important parts of the region should not be ignored. This situation needs to be resolved urgently to prevent it becoming even more complicated and severe. The Kurdish question is, in both form and content, more complex and bears wider regional ramifications than the Arab-Israeli conflict, which at present occupies a central position in the media throughout the world. In his second book Mr Ocalan applies the political and historical philosophy that was developed in the first volume of his Prison Writings to the Kurdish question. It is less philosophical and abstract and addresses the concrete political issues at the centre of the Kurdish question. The author calls for a “Renaissance of the Middle East” where the integration of democratic western values and universal human rights with the deeply rooted cultural values of the Middle Eastern societies, especially the Kurdish one, will form a new synthesis of civilisations.
